

Effective protection of taxpayers' rights

The professionals at Studio Associato Santececchi help their clients both in a prejudicial phase (defining of assessment notices and payment of tax requests), and in the judicial phase, through defence and representation at the Provincial and Regional Tax Commissions, as well as in the drafting of requests not to apply (example: CFC tax evasion laws) and ruling requests.

Studio Santececchi's clients can count on:

- Assistance in prejudicial phase for the definition of assessment notices and payment of tax requests
- Assistance to tax collection entities and requests to delay payment of taxes
- Assistance and consultancy in the writing of recourse to the Provincial and Regional Tax Commissions and concerning representation and defence
